A CIPHER TELEGRAM

Received by the Navy Department From Capt. Picking

AND LOCKED UPON AS SIGNIFICANT,

Indicating that the Powers Have Tired of the Hindrance to Trade and Propose to Put a Stop to It.

Washington, Nov. 18.—A cipher telegram received by the navy department last evening from Capt. Picking, under yesterday's dute, from Rio de Janeiro, is looked upon as significant and possibly indicating a weakening of the strength of the insurgent fleet under Admiral Mello. The translation was as follows:

was as follows:
Naval representatives of eight nations, iucluding our nation, have decided not to permit munitions of war to be landed at Rie. Santos being still in possession of the Brazilien government, and connected with Rie da Janeiro by rallway, munitions of war can be landed at Santos. Yesterday the insurgents dressed ship. The Brazilian government forts area to make the santos and the properties.

The only infarmation to be not

The only interpretation to be put upon this dispatch is that the naval representatives at Rio have decided that there shall be no interference with commerce and have formally notified the insurgent admiral they will prevent it. The probabilities are, and this is the view taken by government officials here, that this action weakens Mello very much, for if he cannot close the ports of Rio and bring the city into subjection it cannot be conjec-tured how he can make his rebellion successful.

It looks to navel officers very much as if Mello had been badly crip-pled. This action is in line with that indicated in previous dispatches from Capt. Picking to the effect that foreign representives held a conference and notified Mello that he must respect the nationality of any lighter engaged in unloading vessels and flying the flag at its bow indicating its nationality. It appears that a studied effort has been made to give Mello no excuse to

fire upon the city.

An agreement was made some time ago that there should be no firing between the forces in Rio and the insurtween the forces in Rio and the insurgents in the bay. This was violated on one occasion, although it is not known if any damage resulted. Today's dispatches indicate that the naval officers on dufy there in their protection of foreign interests are determined that this agreement shall be enforced; for this last notice is the result of concerted action on the part of the allied powers to prevent any firing the allied powers to prevent any firing upon the city and damage to commerce by either side.

EMIGRANTS' MOVABLES

An Opinion by the United States Com-merce Commission. merce Commussion.
Washington, Nov.18.—The Interstate
commerce commission yesterday, in
an opinion by Commissioner Clements,
announced its decision in the cases of
Blanton Duncan against the Atchison, Topeka & Santa Fe system, and against the Southern Pacific Railroad Co. and the Louisville & Nashville Railroad Co. The decision contains important rulings on railways on household goods and immigrants' movables. Under the western classification there are two west-bound carload rates

western classification there are two west-bound carload rates from Mississippi river points to Pacific coast terminals en goods termed "Emigrants' movables." One is a gen-eral class rate and the other desig-nated a "commodity" rate, and less than the general rate: the latter rate is published as being open to "intendinan the general rate; the latter rate is published as being open to "intending settlers only," but in practice it is given to shippers indiscriminately. The committee holds that there is no The committee noise that there is no necessity for retaining the two rates, and that the west-bound rate on "emigrants' movables" from Louisville to Los Angeles ought not to be in excess of the amount of the commodity rate thereon.

The Treasury Balance.

Washington, Nov., 18.—The net treasury balance continues to decline, and at the close of the business yesterday stood at \$06,666,819, of which \$65.794,767 is in gold and \$10,667,062 in currency. So far this fiscal year the customs revenues have fallen of \$21,000,000 as compared with the correspond-000, as compared with the correspond-ing period of last year. For the same period internal revenue receipts have decreased only \$8,000,000.

decreased only \$8,000,000.
Commissioner Miller, in speaking of the matter yesterday, said he expected the internal revenue receipts to increase from now on, and that the total at the end of the fiscal year, 1894, would nearly equal the receipts for the wear 1893, even though they were \$8,000,000 behind. This expression of opinion, he said, was based upon the correspondence and interviews he had with large wholesale dealers in tobacco and liquor. The dull times affected their business very materially, but it was now improving as the daily re-ceipts showed.

Released on a Technicality.

New York, Nov. 18.—T. P. Gardner, the Parkhurst agent who was convicted of an attempt to commit extortion and whose trial has attracted widespread attention, has been ordered released from custody on a decision handed down in the supreme court yesterday by Judges Power and Follotte, Judge O'Brien, dissenting. Gardner was convicted of the charge of taking \$150 from the keeper of a disof taking \$150 from the keeper of a dis-orderly place to protect her against molestation by the authorities. The molestation by the authorities. The court holds that Gardner's conviction could not be based on the law, as evicould not be based on the law, as evidence of fear on the part of the complainant. Catherine Amos, could not be produced. Judge O'Brien dissents from this, claiming that the complainant has nothing to do with the case; that Gardner's criminal intent has been clearly proved and that his conviction was legal.

SECRETARY CARLISLE'S friends in Kentucky are reported to be importuning um to leave the cabinet. Some of them it is said, have gone so far se to advise him to go before the presence of Grover Cleveland and tear his commussion into se and throw the fragments at his feet. This advice has been the result of the president's tr atment of Carlisle's financial opinions and also the course the president has pursued as to Hawani None of this may be true, but it is good advice, nevertheless, if Carlisle expents to remain in politics.

A Bad Position. If Cleveland's Hawaiian policy is right this country is interested in the matter. If it is wrong this country is the more interested in it. Then what excuse can country's representatives who were 11 seeion at Washington when the policy that policy involves the interference of the United States to overthrow a government, recognized by all the civilized nations of the globe and by this country also, and the setting up of another government in its stead, it was a very important matter and concerns our pecple, and should have been submitted to the senate as the constitution requires. The silly idea that because he is correcting an assumed wrong the policy will be approved by the people of this country, has been shattered to pieces by the storm of an indignant people, which has set in against it.

Admitting all that the administration claims as to the interference of the former administration in encouraging, ailing and abetting the revolutionists to he true, the fact that other nations asknowledged the new government, debars Mr. Cleveland from going behind the present government in Hawan to correct a wrong in the extraordinary way

It is a foolish piece of business that will be calculated to blunt the respect of dialomate of other nations for our ability m diplomacy, and will in the future do ne much injury. Had President Cleveland and Mr. Gresham consulted reason in the matter, instead of their prejudice, against the preceding administration, they might have escaped the attitude their conduct has placed them in. It as clear that their motive is to undo what Precident Harrison did. Speaking of this feature of the affair, Jefferson Chandler, an eminent Democratic lawyer of New York, said;

Chandler, an eminent Democratio lawyer of New York, said:

If one administration may occupy itself by inquiries into the sufficiency of facts upon which its predecessor acted, and as the result of such inquiry substitute its judgment for the judgment of the past administration, then the principle above stated of equal authority among Presidents is overthrown. It is only by the preservation of this principle that governmental affairs become orderly, permanent and dignified. Mr. Harrison was elected for four years with full jurisdiction to administer the Presidential office during that period. Mr. Claveland succeeded him for four years with requal, but not higher, power to administer the Presidential office for a succeeding four years. If Mr. Claveland may create a tribunal to accretly inquire into the propriety of the legal sufficiency of what was done by Mr. Harrison during the period in which he was supreme, and to undo what he did if it does not command the favor of Mr. Claveland, may restore the old status and review the official conduct of Mr. Cleveland and may undo that which does not meet with his approval, Under such a system the United States becomes a government of men and not of law.

Can't Arree on the Tariff.

Cat's Agree on the Tariff.

Washington Special: The wool schedule is giving the ways and means committee siderable trouble. Secretary North. of the Woolen Manufacturers' Association, has arrived here to help solve the There is no doubt that wool will go on the free list, but the trouble arress on the rates for manufactured woolen goods. At the outset the ways and means committee depended on Mr. Stevens, one of their associates, and he is one of the largest woolen manufac turers in Massachusetts. In view of the fact that the woolen mills were to receive raw wool free of duty, Mr. Steyens conceded that a cut on woolen goods could be made so that the duties would range from 40 to 60 per cent instead of 110 per cent, se at present. But the radical reva lo eron mere no siste on even more of a out than this, and they ere laboring with Mr. Stevens to concede a reduction to 35 per cent This would be lower than any rate ever proposed by the Morrison bills or any other bill. As yet Mr. Stevens has not been prevailed upon to secept this heavy cut. The presence of Secretery Morth will inspire Mr. Stevens with opposition to further reduction. It is developed also that quite a lively opposition w to be made on the floor of the house against free raw wool. This coppoestion has sto adherents inside of the ways and means committee, and to supported by such wall-known congressional leaders se Judge Culberteon and Mr.

POSITION DURING SLEEK.

A Subject upon which Doctors Arrive at No Agreement.

Almost every one has a favorite posi-tion during cleep, says the New York Ledger, and no end of theseion and beliefs is indulged in on the subject of the proper postion, location and general condition for that sleep "that kalts up the raveled steers of care." Many playsihabit of sleeping on the right side, sipe-pially if one has indulged in a full meal into in the evening. The food makes its exit from the stomach on the right side. and for this reason it is claimed that the position is more favorable to digestic without effort. This is important as all the faculties and functions should have a certain amount of rest, and in no way is this so easily attainable as during the

Other authorities say that one should always lie on the back, but there are excelient reasons why this is not wise. The weight of the stomech and its contents rests upon the spins, which often affects the perven. Some severe cases of insomnia have been cured by the habit of desping upon the face. This is easy to do and is the most comfortable position if one dispenses with the pillow. One young man who had exhausted all the skill of the doctors fell into the habit of lying on his face, with his right arm under his head, which was turned slightly to one side. By this change natural rest soon came to him and he entirely recovered. Whatever position one may choose to take, a little practice will make it comfortable, and the experiment is well worth trying.

Lincoln, ILL., Nov. 17.- In the arraignant of the train bandite the intentions and future course of the state were out lined this afternoon by Chief of Police Mitchell appearing before Justice Scrog gin and submitting a complaint charging Edward Van Meter, Clarence Howe and Robert Woodward with willfully and comiously sessulting W. F. Trott, the by force or back down. Ens.] wounded brakeman, with intent and mal ice aforethought to kill and murder Joon the complaint being eworn to, the nation issued a warrant charging the aforementioned persons with the crime of seconds with intent to commit murder on the 18th day of November.

The prisoners were to have been pres and presences were to neve been present in count during the forenous, but the presence of many people on the street warned the officers to be wary, so they bided their time, and at 2 p. m. quietly conducted the three under an escort of conducted the three under an escort of six armed officers to the justice, who was to fix the amount of bonds and appoint the time for a preliminary hearing. Van Mester and Woodward were bold and defiant; Howe was all smiles, and esemed to appreciate the attention he was attending. The mother of Woodward entered before the proceedings began and kiesed her con, who betrayed no emotion. Young Woodward ; was represented by freed her son, who betrayed no emotion.

Young Woodward : was represented by Beach & Hodnett, the other prisoners

Beach & Hodnett, the other prisoners having no attorneys. State's Attorney King addressed the court upon the necessity of a high ball, and argued that it be made \$5,000 each. This staggered the counsel for Woodward, who replied tersely that the state's attorney must be joking. Woodward shouted in a rage. "Make it \$10,000. I would rather stay in jail; I don't care what you do."

Van Meter shouted excitedly "Make it \$20,000; it's all the same to me."

The State's Attorney faced the prisoners in a towering passion and firmly ex-

to the Court, demanded that \$5000 be the bail, which the Court named.

Mrs. Woodward's eyes filled with tears and she began to reproach the attorney, and the prisoners muttered imprecations. A commotion ensued in the crowd and a man exclaimed in an undertone, loud enough to be heard by the prisoners: "Get a rope and we will give them their just deserts." When silence reigned the Court nervonsly and hurriedly announced that the preliminary hearing would take place Saturday, November 18. The prisoners were then heatled off to jail. Shelles was not brought down from the jail and it is learned that he, the leader and the old prison bird, is the give-away. During the procession of the prisoners from and to tue jail crowds ay. CAKLAND, ILL., Nov. 17.—Ernest Chester, son of a wealthy citizen, who troke jail here a short time ago and carried away the clock of the city jail, returned under cover of darkness last night, bringing with him two young women and a friend by the name of Hawkins. They repaired to Chester's home to spend the night in revelry, the young man's parents being away from home.

Marshal Shields summoned a posse of

rents being away from home.

Marshal Shields summoned a posse of armed men and at a late hour they surrounded the house and called on the young desperadoes to surrender. To this they replied that they would spill the blood of the first man who made an attempt to enter the house. Mayor Glass and Night Police Hackett stood at the front door, while the marshal and the two other guards broke open the rear door and rushed in on the jail breaker, who, eseing that a hand-to-hand fight would prove fatal, rushed to the front door and breaking it open, made a leap for life. He threw himself against the officers with such force that he sent them whiching to the ground, and with a second leap he landed on the skreet and was soon swallowed up in the darkness. Young Hawkins and the girls were captured and looked up in the city isil. To day the city marshal and several deputues are scouring the country in search of Chester, but so far have failed to learn anything of his whereabouts.

It will be remembered that young Chester was arrested at Mount Pulashi a few days ago on the charge of being implicated in holding up a train on the Peoria, Decatur & Evansville railroad, near Lincole, but on telling a smooth story he was released.

To Put Into Effect the Regulations Governing the Protection and Killing of Seals Recommended by the Tribunal of Arbitration.

Eaking Use of the Congressional Re-

WASHINGTON, Nov. 18 .- Senator Mor Washington, Nov. 18.—Senator Morgan, who was one of the arbitrators on the part of the United States in the Behring sea matter, is utilizing the congressional recess to put into shape his report on the proceedings of the tribunal. The findings, which were promulgated last summer, together with the decisions of the several arbitrators, will be printed in Paris and distributed thence by the agents of the governments of the United States and of Great Britain on the 1st of January next.

In connection with this matter, nat-urally Senator Morgan has been in conference with Secretary Gresham and Thursday was with him at the state department from 4 o'clock until to the report printed yesterday that the secretary had requested the sen-ator to call and conshit about the Hawalian matter. As a matter of fact, Hawaii was not referred to except in the most casual and indifferent way. No question of the president's policy or of the instructions given in the Ha wail matter was brought up. The dis-cussion was of Behring sea affairs ex-

It is the expectation of the officials in Washington that Great Britain will join with the United States in enforceing the regulations set out in the decision rendered at Paris

A Question Often Asked.

The question has often been asked

The question has often been asked "What is to prevent pelagic sealers from entering the prohibited zone and destroying these animals, provided they fly the flag of some nation not a party to the Paris decision?" This query was put to an eminentauthority on international questions, and one who is especially familiar with the Behring sea question "No trouble is to be apprehended on that score." he responded, "nearly

avited to join an international agree ment to protect the seals from pelagic destruction, and they declined on the ground that they were not sufficiently interested to warrant them in entering into such a compact. Now, as an original proposition it might be conceived that Germany, for instance, should declaring that she had no interest in declaring that she had no interest in the business, and after the nations which are interested have made an agreement to protect these seals, that she should lend her flag to nullify that agreement. In event, however, said the speaker, "that any nation lent her flag to such an undertaking, it would find itself under such a load of con-demnation that it would soon with-draw from that position."

THE BUSINESS OUTLOOK

As Appears from Dun's Weekly Review of Trade.

Business is Gaining in Volume but, Heavily Handicapped, the Change 13 Slowly Brought About.

NEW YORK, Nov 18.—R G. Dun & Co.'s weekly review of trade, issued today, says:

Co.'s weekly review of trade, issued to-day, says:

Business is mining, but it is a constant compisant that the change is slow. It is but very few that realize how heavy a load business has to drag siter it in climbing up again. Legislative uncertainties weigh heavily, but other loads may be overlocked. The past depression, with trading and manafacturing failures structiving more than \$35,000,000 in nine months, besides banking failures at chormous liabilities and faitures of sever more until the management which mea are prome to forget. There has been great encourage most during the past week in the fact that November payments are far more saffactory than was foared, and yet the extensions would have seemed alarming in other years. Mortchants who collect part of the amount due are rejoiced, but their buying power is not as large as usual. The extraordinary shrinkage in purchases for consumption, if lessening, has still made is impossible for many firms to go on as before, and the largest failure of the year week, that of Turber, Wyland & Co. illustrates embarransments which cannot be terminated in a week or a month.

Monetary distoluties an longer hinder. It is true the treasury cash has failen to \$7,889.865 of which only \$85,469,810 was in gold, but there is no such alarm as there was when the gold reserve went below \$100,800,000. Business is not leaning on the treasury, and it is well that it is not. The receives for the month thus far are about \$6,000,000 less than expenses, and the imported last year. Weekly imports at New York decreased in part from the same cause But while the imports in October were only \$1,610.72 and exports of products \$4,689,515, yet the enormous balance on merchandise account brought net imports of only \$1,000.000 gold. The exports represent a large increase.

181,611,782 and exports of products \$84,665,815, yet the enormous balance on merchandise account brought set imports of only \$1,000 000 gold. The exports represent a large increase in the quantity of products sold, but at lower prices, white in place of merchandisee imported it is evident that there have been large imports of securities from abroad. The banks of New York hold a great surplus, and the fact now comes out that of the clearinghouse certificates recently issued three banks took from \$5 00,000 to \$7,000,000 each, indicating the magnitude of stook losses carried over.

5 00,000 to \$7,000,000 each, indicating the magnitude of stook loans carried over.

It has not been much of a week for speculation, and that perhaps is encouraging. Stocks have slightly declined, railroads an average of 33 cents per shave, and trusts \$1.25 per shave, and stocks must decline greatly near the grangers and some of the trusts being especially weak. The impression prevails that sarnings of railroads must decline greatly now that the passanger traffic is no longer sustained by the fair. But fright receipts alone declined in October 11.2 per ceut, compared with last year, and in also first week of Novem ber 10 i per cent, and although pessenger earnings showed a gain of only 14.4 per cent, against 21.6 per cent. In October, the decrease on all roads was but 4.8 per cent. for the first week on November. It is also to be return bered that the carrings represent that part of November in which the tendency to recovery was least apparent.

November in which the tendency to recovery was least apparent.

In produce markets weakness was the rule, and yet the yielding was but small. Wheat is quoted a full cent weaker, though western receipts are about 500,000 bushels less than usual, the Adiantic exports being only 600,000 bushels, against 2,300,000 last year. Corn is 1 cent lower, with larger receipts. Cotton, with larger receipts, is an eighth lower. Pork products are lower, with large selling, and conce is also lower.

uots are lower, with large selling, and conce is also lower.

The condition of the industries improves, but they will await the revival of purchases by consumers. Twenty-four works of all kinds have wholly or in part resumed, against four toen closing, yetless than half the iron-working power is active, and out of ninety-nine woolen works at the east only ton are working full time, while forty five were shull down November 1, the production for four months in men's woolen being 14 343 431 yards, against 25.554,306 last year.

woolen being it 343 421 yards, against 25.554.008 last year.
The state factory inspectors report that out of 30,000 persons employed in textile mills in Philadelphia, only 1,000 are at work There fore it is more gralifying that for the first time in many months the sale of wool exceed those of the same week hast year. Clothiers exidently begin to realize that they cannot get goods at all, unless their orders prevent a goneral clesing of the huills early in December. In books and shoes there is also decided improvement in spate of the fact that orders are anniher than usual; and most factories are receiving orders, though not enough for full employment. Shipmonts from Hoston for the week were only 5 per cent less than a year 300.

week were only 5 per cent less unan a year so.

The great change in steel rails, which are said to be selling at Pittsburgh for \$20 instead of \$20 a few weeks ago, has given much attinu lus to the demand for materials, and western mails have also taken some large structural contracts. A little better tone is sedn in pig from and large orders are reported for cast pieces but the whole business is still small.

But the whole business is still small. The New Jersey Central has suggested a stoppage of enthracite collieries for two days in the week to sustain the price, and there is said to be general assent. The decrease in the volume of business through the clearinghouses continues about the same, and for the pust with way 186 per cent.

cent.
The failures this week number 324 in the
United States, against 205 last year and 36 in
Canada, against 35 last year
